

Jessem Router Table Accessories

Jessem Mitre Slide

The Mitre R Slide is engineered to perform precision machined square or angled cope cuts, crosscuts and end milling operations with renewed accuracy. The Mitre R Slide offers greatly improved performance and increased precision over similar cuts made with a mitre gauge travelling in a single mitre track in the router table top.

Code JESSEM-06001

Feather boards

Control the position of your material by utilising JessEm Feather boards. Can be aligned either on the vertical or horizontal plane.

Single Feather board: Code JESSEM-4015

Double Feather board kit: Code JESSEM-4016
