LAGUNA

REVO 18 x 36 - 2HP Lathe

Laguna REVO 18 x 36 Lathe

The 18|36 Lathe features a brand new design & details that will excite any serious bowl turner!

The First feature that will catch your attention is undoubtedly the ergonomic angled control panel made from anodized aluminium. The blue hue of the DRO along with the beautiful knurled control knob fitted with a rubber grip signals this is no ordinary lathe.

The bed is made from steel which allows the cast iron headstock to travel incredibly smoothly. Steel is the preferred material due to its well known longevity & strength.

Electronic variable speed is obtained via a VFD that converts 1 phase input to 3 phase output, so even at low settings you will get an incredible amount of torque. The DRO gives you an accurate RPM readout at all times any fine adjustments are made electronically. Changing from high to low settings is made easy by using the quick release handle.

Specifications

Motor Power: 2HP single phase reversible

Swing over bed: 450mm

Distance between centres: 900mm

Swing over tool rest base: 340mm

RPM: 135—3500 (high) / 50-1300 (low)

Floor to spindle centre height: 1050mm

Maximum outboard turning swing: 800mm

Spindle size: 31.75 x 8(RH) TPI

Spindle bore: 9.5mm / 3/8"

Hole through tailstock: 9.5mm / 3/8"

Tailstock quill travel: 114mm

Headstock Travel: Full Length

Floor Space: W 1540mm D 660mm H 1194mm

Weight: 194kg

PRODUCT CODE: LT*REVO18x36
